SUMMARY

I am a recent Computer Science graduate with a passion for web development. I am currently seeking an opportunity to apply my skills, learn new technologies, and grow professionally while contributing to an organization.

WORK EXPERIENCE

Team Leader & CAD Technician, Crawford & Co Surveyors   **Mar 2023 - Feb 2025**

- Led and managed a team, assigned tasks, and met project deadlines.
- Provided guidance and support, resolving technical and workflow-related issues.
- Created technical drawings, elevation views, and 2D plans for existing buildings using Revit.
- Developed 3D models of commercial buildings and assessed their energy efficiency using Design Builder.

Software Developer Intern, Itelligence Business Solution   **Sept 2022 - Nov 2022**

- Developed an E-commerce web application using Oracle Apex, HTML/CSS, JavaScript & SQL.
- Worked on NetSuite ERP.
- Wrote SuiteScript API to create records and send data between NetSuite and the web application.

EDUCATION

Bachelor of Science in Computer Science   **2020 - 2023**
University of Mauritius

A Level & O Level   **2016 - 2019**
Piton State College
